

FEATURED • SESSIONS

2019

MAR 31ST – APR 3RD
SACRAMENTO, CALIFORNIA

The MAVES Advisory Board Users Group (MABUG) Conference is fast approaching and we have an exciting agenda in the works for all attendees. Here are featured sessions you won't want to miss!

What's New at MAVES?

Every conference is an opportunity for MAVES to showcase new developments available in the latest releases as well as a peek at what is under construction. Items that will be presented include:

Release 19.010

As usual, the Spring Release will include many new features and enhancements aimed at strengthening your service capabilities and enabling efficiency. A review of these features including high level functionality and benefits will be presented. Key new abilities will be explored in greater detail.

DocStore Document Retention

A powerful tool for retaining supporting documents for your transactional activity, DocStore offers, again, expanded scope. Among the new capabilities, automatic attachment of retained documents to outbound invoices and other documents will be presented.

eCommerce Initiatives

Learn how MAVES' strategy continues to become real. Hear updates on connectivity capabilities and walk through supporting floor processing features currently available. Join in discussion of other features targeted for development in this area.

VPL Cloud

Progress towards introduction of a Cloud-based ViewPoint Logistics™ offering has been included in recent conferences. VPL Cloud has been implemented this year. The features and benefits will be discussed.

HighViews/ MyLogistics

ViewPoint Logistics™ HighViews and MyLogistics will be presented from two standpoints:

- Updates to the current HighViews and MyLogistics such as BIRT reports available on MyLogistics
- Our next generation HighViews and MyLogistics, built on updated technology, will be unveiled and a deployment strategy presented.

Special Opportunity: Visit to Sierra Pacific Warehouse Group facilities

Attendees at this year's MAVES Users Group Conference will have the opportunity to tour two Sierra Pacific facilities. The two facilities illustrate aspects of Sierra Pacific's scope of services as well as how functionality of MAVES ViewPoint Logistics™ is leveraged in providing these services. This tour is scheduled for Tuesday with an all group dinner Tuesday evening.

And More

The agenda will be finalized as the Conference gets closer will include New Feature sessions as well as sessions focused on optimization of the use of the version of MAVES software you currently use.
