

Data Visibility, Advanced Reporting, Document Management

Your 3PL operations run in real-time, and so do your customers' expectations. Why rely on reports that are outdated the moment they're generated? With our cutting-edge Business Intelligence Reporting Tool—HighViews and Action Grids—you get instant data, reports, and charts, all updated live as your business moves.

HighViews in ViewPoint Logistics™ lets you organize, analyze, and manage activities from a dynamic workspace. Action Grids and Charts provide critical insights in a format that's easy to understand and interact with—no need for printed reports. Fully user-configurable and accessible 24/7 for you and authorized clients.

Plus, e-Docs enables automated emails and customizable graphical forms, giving you advanced reporting at your fingertips.

Product Features

Business Intelligence Reporting

- Serves as the central launch point for running multiple activities in your operation
- Refreshes automatically with instant updates, following each stage in your work cycle
- Reporting Scheduler

Automated Reporting

- Automated reports generated and sent at scheduled intervals (e.g., every Friday)
- Available in PDF or CSV formats; easily printable, emailable, or downloadable to Excel
- Automatically send reports to designated recipients
- Real-time and historical data reporting powered by BIRT (Business Intelligence Reporting Tool)
- Instant access to inventory, receipt, and order data for your customers

Document Management

- **Eliminate Manual Filing:** No more manual copying or filing of external documents like Bills of Lading, trailer photos, HAACP, or other important documents.
- **Quick Document Attachment:** Attach documents or images to inbound or outbound transactions with just a few clicks.
- **Support for Multiple File Types:** Easily handle files like XLSX, CSV, JPG, GIF or PNG
- **Online Document Access:** View all related documents online, available to customers through the MyLogistics web portal.
- **One-Click Access:** Customers can instantly view Bills of Lading or attached files with a single click.
- **Advanced Document Handling:** Beyond graphical forms with seamless **DocSign**, **DocStore**, and **signature capture integration**.
- **Boost Efficiency:** Save time and streamline operations with easy document and signature management for both internal teams and clients.
